

WHS BYOD Student/Parent Guideline Agreement Form

Wakefield High School is excited to announce that we are part of the second cohort of schools in Wake County chosen as a pilot school for BYOD (Bring Your Own Device). We look forward to this exciting opportunity because we know it will enable our students to become future-ready, empowering them with the “4 Cs” of 21st Century learning - collaboration, communication, creativity, and critical thinking to make decisions and solve problems. In this initiative, students are encouraged to bring their own technology devices to the classroom to enhance their learning experiences. Teachers have the option to immediately or gradually incorporate BYOD in their lesson planning. This document is a contract governing the establishment of this new program at WHS. Please note that students who cannot bring outside technology will be able to access and utilize the school’s equipment. No student will be left out of classroom instruction.

Definition of “Device”:

For purposes of BYOD, “device” means a privately-owned wireless and/or portable electronic hand- held equipment that includes, but is not limited to, smart phones, portable internet devices, handheld entertainment systems, or portable information technology systems that can be used for word processing, wireless internet access (laptop/tablet), etc.

Security and Damages:

Responsibility for the security of the device resides with the individual student. WHS is not liable for any device stolen or damaged on campus. If a device is stolen or damaged, it will be handled through the administrative office similar to other personal artifacts that are impacted in similar situations. We highly recommended that skins (decals) and other custom touches are used to physically identify your device from others. Additionally, protective cases for technology are encouraged.

WCPSS Expectations:

Students participating in BYOD will be given access to the WCPSS BYOD Wi-Fi. WCPSS BYOD Wi-Fi may only be accessed while on campus. Students are expected to adhere to the following WCPSS BYOD Guidelines: No Touch (teachers and students cannot touch devices unless for disciplinary reasons related to improper use), Access WCPSS BYOD Wi-Fi only (no 3G or 4G service), no printing at school, and must have and use a WCPSS email account.

WCPSS Technology Responsible Use Board Policy 3225

This policy governs the use of WCPSS electronic information resources and defines students' proper conduct and responsibilities while using WCPSS electronic information resources. View policy at: <http://www.wcpss.net/site/Default.aspx?PageID=13046>

BYOD Student/Parent Agreement:

Students and parents/guardians participating in BYOD must adhere to the Student Code of Conduct, as well as all Board policies, particularly Furthermore, the student must agree to the following conditions:

(Continued on the back)

Parent initial	Student initial	WHS BYOD AGREEMENT
		We understand that the student takes full responsibility for his or her device, and the school is not responsible for the security and safety of the student-owned device.
		We understand that the device must be in silent mode while on school campus and while riding a school bus.
		We understand that the device may not be used to commit academic dishonesty on assignments or tests or for non-instructional purposes.
		We understand that the student must have and utilize the WCPSS issued email account and access only content on the device or internet sites which are relevant to the curriculum.
		We understand that the student must comply with teachers' requests to shut down the device. Teachers will follow WHS guidelines concerning students failure to comply with proper use of the device which can result in the device being confiscated.
		We understand that the student acknowledges that the school's network filters will be applied to one's connection to the internet, and the student will not attempt to bypass them.
		We understand that any attempt by the student to bring on premises or infect the network with a Virus, Trojan, or program designed to damage, alter, destroy, or provide access to unauthorized data or information is in violation of the Technology Responsible Use policy and will result in disciplinary actions.
		We understand that processing or accessing information on school property related to "hacking," altering, or bypassing network security policies is in violation of the Technology Responsible Use policy and will result in disciplinary actions.
		We understand that student printing from personal devices will not be possible at school, and while at school, all devices will utilize the WCPSS BYOD Wi-Fi.

I understand and will abide by the above guidelines. I further understand that any violation is unethical and may result in the loss of my network and/or laptop privileges as well as other disciplinary action.
